

Highly successful conclusion to summer adult tennis season at Dorchester Tennis & Squash Club

October 2019. With its new, all-weather artificial clay tennis courts in play for a first complete season, Dorchester Tennis & Squash Club's adult tennis teams have had an extremely successful summer 2019. For the seven teams competing in the Dorset League and three teams in the Yeovil & District League, the season recently concluded with three teams promoted and three other teams narrowly missing out on promotion places.

In the Dorset League, the Men's 2 team gained promotion to Division 2 after finishing top of Division 3 and the Men's Vets have been promoted to Division 1 after finishing second in Division 2. The Men's 60+ team narrowly failed to regain the Dorset title, finishing in second spot for the second year in a row. Finishing in third place in Division 4, the Mixed 2 team just failed to gain promotion. Unfortunately, the Ladies team continued their perennial yo-yoing between Divisions 1 and 2 and dropped back down to Division 2.

In the Yeovil & District League, the newly formed Ladies 2 team, playing its first season in the League, immediately won promotion to Division 3. Finishing third in Division 2, the Ladies team narrowly missed out on their third successive promotion in a row. The Men's team also narrowly missed out on a promotion slot, finishing third in Division 3.

"In what has proven to be a highly competitive season, our adult teams have been fantastically successful this summer," said Keith Mason, the Chair of the DTSC Tennis Committee. "We couldn't wish for a better lead-in to the winter season which is just around the corner, when our new all-weather artificial clay courts, which have already proven their worth and continue attract new talent to the Club, will really come into their own."
